Take Action Against Weeds & Pests

The Take Action Herbicide Lookup Tool helps you diversify your herbicide site of action (SOA) to prevent herbicide-resistant weeds from spreading.

Using multiple herbicide sites of action (SOAs) is key to effectively manage your fields to combat and prevent a herbicide-resistant weed problem on your farm. With this handy tool, you can:

- Identify the herbicide brand or active ingredient you've used before in a snap.
- Discover other SOAs you can use to mix up your weed management strategy.
- Search for your specific weed problem to find effective SOAs.
- Easily eliminate similar SOAs to the herbicide you've used on your problem weed.
