Soybean Meal: These Varieties Are for the Birds

In the world of chicken nutrition, it's all about the right grub for healthy growth. Broiler chickens need a mix of energy, amino acids, and nutrients in their diets. Soybean meal, loaded with protein and essential amino acids, is a go-to ingredient. [University of Arkansas System Division of Agriculture](#) professor **Michael Kidd** has teamed up with soybean breeders to improve soybeans for broiler feed. He's working toward cooking up better soybean options to keep our feathered friends thriving. Read more of this [SRIN article here](#), or click to watch the video below for more insights.

Career Snapshot Kisia Weeks

In recognition and celebration of the 2024 National FFA Week, we're highlighting White Hall High School's Agriculture Mechanics & Natural Resources Teacher and FFA Advisor, **Kisia Weeks**.

After learning about agriculture as a freshman in high school, it was no longer a question of which subject Kisia wanted to teach. Now, she takes pride in sharing with high school students the diverse career options in agriculture!

Learn more about Kisia's story and the many careers in agriculture by watching her Career Snapshot video today.

Celebrating the Year of the Dragon: Arkansas' Robert Petter Visits China Ahead of Lunar New Year

We're proud to share Arkansas farmer and United Soybean Board Director **Robert Petter** was invited to speak at USSEC's Sustainable Soy Trade Roundtable and U.S. Soy Banquet in China ahead of the start of 2024.

During his speech, Robert emphasized the commitment to sustainable development in U.S. soybean production. He also shared examples from his own Arkansas farm while expressing his confidence in the continued joint leadership with the U.S. and China in global sustainability efforts.
